AUSTRALIAN

MADE

Thermoline Flotation Bath

- Ideal for tissue work
- Features an illuminated lift out borosilicate glass tray
- Samples illuminated from below the water surface
- Lamp can be easily changed
- Finished in PVC coated steel with stainless steel work top area

PRODUCT DETAILS

This Flotation Bath is designed for tissue work featuring an illuminated lift out borosilicate glass insert. Dimensions of the insert are 280x200x50mm deep, with a lid to cover the bath when not in use. Samples are illuminated from below the water surface by a built in 9W high efficiency lamp. The lamp is easily changed if necessary by removing the stainless steel work top.

The unit is finished in PVC coated steel with a stainless steel work top area.
